*Y18 1 Penny 1869D The rarest of Victorian pennies and perhaps the only one extant wich much of the original brilliance. Wilson Peck notes, in his celebrated book, this date as being very rare. We researched through our library for a previous offering of this coin in similar condition and found one listed in a catalog from Empire Coin Company. In their June 1966 catalog, a similar coin was described as follows:

"Beautiful red and brown uncirculated... the 'rarest of the rare'... the rarest Victorian penny in the finest condition. Probably not more than a half dozen (if that many) 1869 pennies in all the world are the equal of this one... $1,250.00"

We are offering one which surpasses the above-described coin in condition and has much of the original brilliance. Since that particular specimen was offered, almost nine years ago, we have witnessed galloping inflation, and therefore, we feel that this magnificent specimen is worth all of, if not more than 1,950.00

*EL SALVADOR: FR5 Y29 20 Colones 1925. This coin has the smallest mintage of any of El Salvador's coins and ranks among the rarest of Central American coins. In fact, its reported mintage of 200 specimens is questionable, and the cataloger doubts that more than 20 exist. This coin was struck to commemorate the 400th anniversary of the City of San Salvador. This handsome and rare piece portrays conjoined busts of Pedro de Alvarado, one of Cortez's lieutenants and founder of the city, and Alfonso Quinones, President of the Republic in 1925. About 10 years ago, my search for one of these coins led me to travel to El Salvador and I was then convinced that locating one of these coins was almost as difficult a task as was Ponce de Leon's search for the Fountain of Youth. Much to my disappointment after long travel, I inspected a piece which was an obvious counterfeit. Since those ten years I have seen offered only 2 specimens of this coin, and finally I have been able to obtain this single specimen which I am proudly offering. One of the rarest among gold coins of the world. BU. 4,950.00

SALVADOR

ES5 Y3 1 Centavo 1893. So rare is this coin that this particular date was not entered in Yeoman's book until the 11th edition just released. The companion year, 1892, of this type is rare enough & has recently escalated to the $300 bracket, but the 1893 date which we are offering is rarest amongst the rare. The book THE COINS & PAPER MONEY OF EL SALVADOR, makes mention of 3 known specimens of this date. It is likely that this piece does not alter the quantity of pieces known. We obtained this coin through a dealer but we suspect this is the same coin which we sold in conjunction with the King Farouk collection, as it has the peculiar double struck date. How rare can a coin get? Abt XF. 550.00

We have noted with interest that the CUZCO 1 Dinero (above #607) has now been categorised as a separate type in the 11th edition. We think this is a wise decision as there is a great difference in the structure and design between these pieces and the Lima Mint coins.

*MEXICO: 3 Reales Carlos and Joanna. A short-lived, monetarily unpopular, but today numismatically one of the most popular and coveted coins, this piece was discontinued by the Mexican Mint due to its unpracticality. The coin bears the legend PLVSVLT (or some variations of it) across the Pillars which later evolved into PLUS ULTRA and bears the assayer R for Francisco del Rincon, first assayer and foundryman of the Mexico City Mint. The specimen we are hereby offering is of Nesmith Variety 5A Utberg, page 15, 3 Reales Carlos I. (We realize that the Nesmith Catalog is probably unavailable, therefore we are reproducing above his actual book drawing.) The specimen we are offering signifies an important finding from a shipwreck along the Texas Coast from one of three ships of the so-called Jetty Wreck 1554, near Port Mansfield Pass Padre Island, Texas. Having been at one time embedded in the ocean floor, we cannot deny its effects from its long battle with the sea. However, this coin remains a vivid memory of the early culture of the Continent and one of the most sought after coins struck in the first mint of the Americas. We, of course, do not expect to obtain anywhere near the $5,600.00 price at which the celebrated Nesmith specimen was sold in our King Farouk Auction in August, 1972, but in our opinion, this piece is considerably better than a specimen offered and sold last year by a friendly competitor for $1,750.00 (documentation available if necessary). We will describe it as a salvaged specimen with some corrosion, but with all of the important details clearly distinctive as to the three dotted type and the type of letter "M" on the obverse.
Our price only. 1,450.00

SANTA FE (NUEVO REINO)

*Calb. #1349 8 Reales 1651RMS, Philip IV. At one time embedded in the ocean floor, remains a pleasant VF with light corrosion. A definite double-strike, somewhat similar to a specimen in Medina's MONEDAS COLONIALES. The same coin offered as Lot 1103 in our recent auction, but failed to obtain a reasonable reserve of. 850.00
